

# OTC2014

## 2014 Offshore Technology Conference

5-8 May • Houston, Texas USA

[www.otcnet.org/2014](http://www.otcnet.org/2014)

## Attend the offshore E&P industry's premier, global event!

Celebrating its 45th anniversary, the Offshore Technology Conference (OTC) is the world's foremost event for the development of offshore resources in the fields of drilling, exploration, production, and environmental protection. OTC attracts more than 90,000 attendees from 120+ countries and 2,700 exhibiting companies.

OTC gives you access to leading-edge technical information, the industry's largest equipment exhibition, and new professional contacts.

### Learn technical information that you can apply back at the office

OTC offers key insights by global experts on technological advances, safety and environmentally focused solutions, and economic and regulatory impacts. Here are highlights of the 2014 programme:

**Project Updates:** OTC showcases project updates from around the world, such as the Shell Mars B Project, which at the peak will add 100,000 boe a day to the field.

**Unconventionals' Impact Offshore:** OTC features discussion on what impact the unconventional play revolution has on the offshore deepwater industry.

**Ensuring Talent Resources for Tomorrow and Training New Professionals:** Hear from Global Subsea University Alliance, a group dedicated to establishing standards for subsea engineering education.

**New Topics Introduced:** OTC 2014 presents new applications and solutions for underwater monitoring networks and sensing, and process safety in offshore operations. OTC's invited organisation, JOGMEC, will share results from the first marine methane hydrate production test.

**Economic Future:** OTC offers discussion on oil economics, gas monetisation, and CAPEX outlook. Experts from Douglas-Westwood, Marathon, and Total will be on-hand to discuss energy forecasts. Also hear about significant changes in Mexico's oil sector that will have profound effects on the Gulf of Mexico.

### Hear executive-level speakers that you might not encounter anywhere else

OTC's topical breakfasts and luncheons feature top executives from major IOCs, NOCs and independent operators. Presentations cover a wide variety of management, implementation, research, and technology-related issues.

### See ground-breaking innovations and meet the leading providers of products and services

Whatever you are looking for in the offshore E&P industry, you will find it at the OTC Exhibits. The exhibition will be held in Reliant Center, Reliant Arena, OTC Pavilion, and the outdoor OTC Parkway.

### Celebrate industry accomplishments and support a worthy cause

The Annual OTC Dinner recognises the OTC Distinguished Achievement Award recipients, raises funds for Medical Bridges, and provides an excellent opportunity for industry leaders to network with colleagues from around the world. Visit [www.otcnet.org/2014](http://www.otcnet.org/2014) to learn about sponsoring or attending this event.

### OTC and the International Buyer Program

OTC is a proud participant of the US Department of Commerce's International Buyer Program (IBP). Through the US Commercial Service's network of offices in US Embassies and Consulates worldwide, the IBP recruits prescreened foreign buyer delegations and brings them to selected US trade shows, connecting US companies with international buyers. Commercial Service trade specialists located in your local Embassy or Consulate can assist you with show registration, help you locate the products you are looking to purchase at the show, and assist in setting up meetings with you and US businesses.

Travelling to the show with an official International Buyer Program delegation allows you to receive complimentary show registration. To join an International Buyer Program delegation, contact your nearest US Embassy or Consulate. Learn more at [www.export.gov](http://www.export.gov).
